

Marine Safety Information Bulletin

04-26

February 17, 2026

Security Zone; Sabine Pass Channel – Golden Pass LNG, Sabine Pass, Texas

With the resumption of marine operations at Golden Pass LNG in Sabine Pass, Texas, the public is reminded that a federal security zone is established in accordance with 33 CFR § 165.819. This bulletin serves as a reminder to ensure safety and compliance.

Security Zone Details:

As stated in 33 CFR § 165.819, when an LNG carrier is moored at the Golden Pass LNG mooring basin, a security zone is activated for all waters south of a line connecting the following coordinates:

- 29°45'58" N, 093°55'40" W
- East to 29°45'52.8" N, 093°55'20.8" W
- Bearing 120° T to the shoreline at 29°45'50" N, 093°55'17" W

Regulations:

As stated in 33 CFR § 165.819, entry into or remaining within the security zone is prohibited for all vessels except:

1. Commercial vessels operating at waterfront facilities within the zone
2. Commercial vessels transiting directly to or from waterfront facilities within the zone
3. Vessels providing direct operational or logistical support to commercial vessels within the zone
4. Vessels operated by the appropriate port authority or by facilities located within the zone
5. Vessels operated by Federal, State, county, or municipal law enforcement agencies

All other persons or vessels must request permission to enter the security zone from the Captain of the Port, Port Arthur, or their designated representative.

To Request Permission:

- Contact Vessel Traffic Service Port Arthur on VHF Channel 01A or 65A or by Telephone at (409) 719-5070

For More Information:

Please refer to 33 CFR § 165.819 for the full regulatory text and additional details.
